Douglas,

I am not going to be on the call as NRC Ex. 6 They requested someone else to sit the call in my absence. But rather than putting Valois on the spot, perhaps I could send them a one-two sentence update via email today. It's really just for their information only and inquiring about EPA permitting status not background info.

One suggestion is that I shoot back an email that says EPA has not made a decision on the permits as we are still working through the tribal consultation process. I'll also let them know that if Valois is available, she'll call in.

And I'll send an email to Valois and let her decide if she wants to call in or not.

Does that work? Wendy

Please work from this background piece and maps for now.

Valois should be back in time for June 8<sup>th</sup> call. I am fine with you representing our DI program on the call but check with her.

Note that we have not been making any mention of Class I well permitting since this is pre-decisional.

Douglas

Douglas,

I been sitting on these quarterly meeting with NRC/BLM for years now. It's usually a listening session for me so that I'm aware of the ISR activities in WY. As you can see in the agenda, their purview is WY sites and Dewey Burdock. What info can I provide Alan regarding Dewey Burdock. Or would you prefer Valois sit this call? BTW, if there is anything of interest on DB, I do pass that info along to her.

Thanks, Wendy

Wendy,

Not knowing the details, but being aware that Region 8 has the lead on deep injection wells in SD (specifically for the Dewey-Burdock Project), what is the status of that review?

Thank you,  
Alan

Alan,

As the project officer for WDEQ, I have an interest in keeping up on the going-ons in Wyoming. Other staff work with other states and most do not deal with ISR mining. Is there something you'd like for EPA to speak to? If so, I'll ask around to see if they can provide info on that topic. But if it's a listening session, I can catch up with the notes.

**Subject:** Qtrly Status Mtg re: Uranium Recovery

Good morning, all. It's getting that time, again, for our quarterly conference call on uranium recovery. Attached is the basic format (draft agenda) to use as guidance for developing your status (update). Please make sure the appropriate people whose projects are listed, as well as any that are unlisted, receive it so we can all benefit from the latest information on the recent activities. Please respond NLT COB, Fri, Jun 3, 2016. The agenda will be finalized by COB Mon, Jun 6, 2016.

The teleconference will take place on Wed, Jun 8, 2016 at 0800 MDT (1000 EDT).

A bridge line and pass code will be provided next week.

All, have a wonderful and safe Memorial Day, as we honor those that sacrificed themselves to preserve our country's freedom.

Thank you,

*Alan B. Bjornsen*
